

DFX 410

- ◆ Fast and effective fluid exchange
- ◆ 2 New fluid tanks
- ◆ Shop air only
- ◆ Compact size

*Another Innovative
Machine from Kenvo*

The DFX 410 is designed to service differential cases, manual transmissions and 4 wheel drive transfer cases.

The machine works on shop air only, therefore there are no pumps or moving parts to break down or clog up.

The exchange process is extremely fast taking only a few minutes to accomplish.

The DFX 410 has two new 8 qt/lit fluid tanks making it very versatile for using different fluids.
